

Voluntary School Contributions

Dear Parents,

Each year, our school kindly requests school contributions from our families, to help support the purchase of a variety of educational and sporting equipment in the school and to help subsidise the online learning platforms, such as Reading Eggs and Soundwaves. These contributions are entirely voluntary, with no child disadvantaged or discriminated against if their parents cannot, or choose not to, pay the contribution.

Our school sets the level of contribution in consultation with the school community.
